

C1005B-Series

THERMAL CIRCUIT PROTECTORS

Carling Technologies is pleased to introduce the latest addition to our Thermal Circuit Protector line, the C1005B-Series.

Designed for industry standard .550 x 1.125 mounting hole, the C1005B-Series is a switch and circuit protector in one small, compact package. This combo-device eliminates the need for both a switch and thermal circuit protector on customer panels. By using only this multi-purpose product, wiring and assembly costs are greatly reduced, while at the same time, valuable panel real estate is saved.

The C1005B-Series is available lighted or unlighted, in a variety of colors, with solder lug or .250 Tabs. Current ratings range from 7-16 amps @ 125 and 250 VAC and up to 24 VDC.

Key Applications for the C-1005B-Series include:

Household and Commercial Appliances
Transportation
Marine
Telecommunications
Power Strips
Audio-visual Equipment
Medical equipment
Power supplies
Generators

Safety Regulatory Agency Approvals:

UL, CUL, TUV (May 2008)

Product Availability: April 2008

Product Bulletin #125
March 2008
